

Peer to peer (P2P) lending is a form of crowdfunding, using the Internet to reach hundreds of potential investors, who can invest in a business without the use of a traditional financial intermediary, such as a bank. Beehive uses innovative peer to peer technology to simplify and speed up the process of securing funding, so businesses get faster, lower cost finance.

Invoice Finance

Beehive Invoice Finance is a fast, short term finance solution to quickly improve working capital and cash flow. It enables a business to draw money against its invoices before the customer has paid, helping to reduce the risk of late payments.

On Beehive, businesses can list **invoices that are due within 60 to 150 days and receive up to 80% of the outstanding cash.** Funds can be received within **24-48 hours** at rates starting from 0.75% per month. Businesses can choose which invoices they want to finance and quickly find the lowest cost available from the Beehive investor community.

Businesses seeking finance to improve their cash flow must meet the following **minimum requirements** to apply:

finance up to
80%
of your outstanding
receivables

flexible
short term
finance

finance
within
48 hours

rates from
0.75%
per month

no facility
fees

improve
your
cash flow

Beehive is the first peer to peer lending platform to be regulated in the Middle East.
